Shantosh Merhai

Final-year Software Engineering student (HBO)

The Hague, Netherlands · Shantosh-2002@hotmail.nl · linkedin.com/in/shantosh-merhai-225ab2315

PROFILE

Final-year HBO-ICT Software Engineering student at The Hague University of Applied Sciences, with experience in both backend and frontend development. During my internship at AiDx Medical, I took on the backend and deployment of a medical annotation tool without having worked with either before. I taught myself how it works, built the backend with FastAPI and MongoDB, and deployed the application to AWS using Docker. That is how I approach new things: I get started, figure out how it works and learn along the way. I enjoy contributing broadly to real software products and keep growing as a software engineer.

TECHNICAL SKILLS

Languages	Java, Python, C#, JavaScript
Backend	Spring Boot, FastAPI, REST APIs
Frontend	React, HTML, CSS, Tailwind CSS
Databases	SQL (MySQL), MongoDB
Tools & cloud	Git, GitLab, Docker, AWS
Way of working	Agile / Scrum, Event Modeling
AI tools	Claude and ChatGPT to work more efficiently when programming
3D / game	Unreal Engine, Houdini, Maya

INTERNSHIP EXPERIENCE

Backend Software Engineering Intern | AiDx Medical, Schiedam — Sep 2025 – Jan 2026

Development of a web application for annotating medical images, together with a fellow intern.

- Independently responsible for the backend and the deployment of the application
- Collaborated with a fellow intern who built the frontend and wrote the documentation
- Worked in sprints using Agile / Scrum

PROJECTS

Medical annotation tool | Internship project, AiDx Medical — 2025 – 2026

Web application for annotating medical images · Stack: Python, FastAPI, MongoDB, React, Docker, AWS

- Built REST APIs with FastAPI to handle data exchange between the backend and the React frontend
- Connected the backend to a MongoDB database
- Containerised the application with Docker and deployed it to AWS; my first experience deploying an application on my own

EDUCATION

HBO-ICT, Software Engineering (Bachelor) | The Hague University of Applied Sciences — Sep 2023 – present

- Fourth and final year

International minor (exchange) | University of Derby, United Kingdom — Feb 2026 – Jun 2026

- Taught in English; worked with Unreal Engine, Houdini and Maya

OTHER WORK EXPERIENCE

Plumber's assistant (part-time) | Various locations — Jan 2024 – present

- Supported new-build construction projects, including installing water pipes and drainage systems

Cashier | Albert Heijn XL, The Hague — Sep 2022 – Jun 2023

- Helped and advised customers, processed transactions and resolved complaints

LANGUAGES & INTERESTS

Languages	Dutch (native), English (B2)
Interests	Reading, films and series, gaming, karting
